PROFESSIONAL SUMMARY

Legal and Risk Management professional (LL.M.) with expertise in corporate compliance and risk control within state-owned enterprises. Highly skilled in automating data workflows and reporting processes using Python and Streamlit. Adept at cross-functional collaboration, contract management, and trade compliance execution. Fluent in English (CET-6) with strong analytical problem-solving capabilities to drive operational optimization.

WORK EXPERIENCE

COFCO Trading | State-Owned Enterprise

Risk Management Specialist, Coastal Region

2026.04 – 2026.07

Enforce internal controls, risk warnings, compliance reviews, and the "Ten Red Lines" policy.

Deliver risk control training on automated workflows and compliance cases to staff and management.

Propose system and process optimizations to headquarters based on cross-level operational feedback.

Market Risk Management Specialist (Seconded to Headquarters) 2025.07 – 2026.03

Monitor market risks, exposure profit/loss data, and industry trends; responsible for contract performance margin and overdue sales management.

Participate in trade compliance inspections of core business departments, assist in revising policies related to market risk management and overdue procurement, and participate in improving related systems.

System Automation & Data Processing: Independently developed and deployed over 8 automated Python scripts (using pandas and openpyxl libraries) and interactive web applications (deployed based on Streamlit and GitHub, e.g., the ctmr2026 project), achieving automated data cleaning, standard report generation, and automated email distribution, significantly improving risk data processing efficiency.

Risk Management Specialist, Coastal Region

2024.12 – 2025.06

Manage cargo rights risks, executing credit admission, dynamic rating, and qualification tracking for leased warehouses.

Track overdue contract margins and calculate supervision deduction fees.

Rotated to Guangxi and Fujian branches to analyze frontline operational logic and upgrade frontline risk control systems.

Legal Counsel, General Department

2024.07 – 2024.12

Conduct research on civil/commercial laws and draft legal documents, including collection letters and risk warnings.

Manage compliance documentation and contract reviews to ensure smooth operation of the new contract system.

Execute quarterly special inspections on contract risk performance.

Collaborate cross-departmentally on daily disciplinary inspections to advance corporate legal compliance and standardization.
